About Us

The Blade Lift Tool was designed, invented, patented and manufactured to provide an effortless and safe mechanism for changing blades on road graders, snow plows, v plows and swing arms. Leachrod brings installation of blades to the 21st century with the Blade Lift Tool.

Testimonials

"This Tool allows one person to safely and efficiently change cutting edge blades. Prior to the Leachrod tool it took two men to change the blades safely".

-General Service Manager, Caterpillar

"Everyone that has a Leachrod Blade Lift Tool thinks it's the best thing ever. It saves peoples backs, fingers, and toes; it's a one man one tool operation. The manufacturing and quality make it an extremely efficient tool".

-Product Support Representative, Caterpillar

"Will decrease injury from installation"

"Easy to Use"

"This is a solution for a longtime safety problem"

"Never seen anything like it"

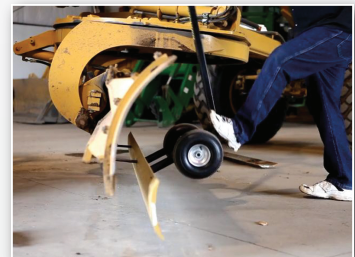

-Comments from several local Kansas Townships

Differentiators

Ease of the Leachrod Blade Lift Tool vs Manual
Saves Time & Labor
Safety vs. Accidents
One Man Installation

Made in USA

Government Business POC - Linda Leach
